Create a Tracker from a Curriculum Map

Learn how to create a tracker from a Curriculum Map. If your school or district shared a map with you, create a tracker set-up specifically to meet your curriculum needs.

Our district naming convention is: **TeacherName CourseName Period#**

<https://onlinepd.masteryconnect.com/#/course/1/lesson/96>

Tracker Basics

Dive deeper into the features of the Mastery Tracker. Learn how to view individual student data and rearrange standards within your tracker.

<https://onlinepd.masteryconnect.com/#/course/1/lesson/5>

Performance Grader

Add student data into your trackers, using the Performance Grader tool to check those rubric criteria question type assessments. Rubric criteria assessments are any type of question that requires the teacher to assign a point value. Some examples include: **essays**, extended response, performance tasks, show your work, and more!

Deliver an Online Assessment

Learn how to access a test code and let your students do the rest! Students logon to a computer or personal device and make their selections.

<https://onlinepd.masteryconnect.com/#/course/1/lesson/102>

MasteryConnect - Mobile Apps

In this brief 4 minute web-based course, you'll learn how to access and utilize all of the MasteryConnect Mobile Apps. MasteryConnect Mobile Apps provide you with a simplified, user-friendly version of the many great features available on masteryconnect.com. Now you can keep on trackin' on the go!

Create a Multi-Standard Assessment

Learn how to upload and add your own classroom assessments to MasteryConnect.

<https://onlinepd.masteryconnect.com/#/course/1/lesson/98>

Deliver an Offline Assessment

Learn how to print assessment materials and bubblesheets right from your tracker. Then, behold the wonder of the GradeCam as it automatically scores multiple choice questions right before your eyes.

<https://onlinepd.masteryconnect.com/#/course/1/lesson/101>

Customizing Curriculum Maps

Finish building your curriculum map by adding assessments, notes, and resources. Need a custom standard? You'll learn how to do that too.

<https://onlinepd.masteryconnect.com/#/course/2/lesson/18>

Set a Power Standard in a Tracker

In MasteryConnect, a power standard is used to call out or emphasize specific standards in a tracker or curriculum map. You can set a standard as a power standard for any reason that you may have to mark that standard. For example, if it is one that needs to be mastered before moving on.

Sharing and Collaborating on Curriculum Maps

Maps aren't just for Geography teachers any more. Put your curriculum map to work with the course that shows you how to share maps, create a tracker from a map, and sync changes.

Updating Your Tracker for a New Semester

In a new semester, perhaps you find that you are either missing students or have "extra" ones. You can quickly update those new rosters to your existing Trackers. When a student is moved from one classroom to another during the school year, you can easily transfer that student's information (including mastery levels and scores) to the new teacher's Tracker if the Tracker is not connected to a section. Find out how here.
