April 14, 2020

Dear Class of 2024,

Welcome to the PMSA family. To make a smoother transition to freshmen year, we have selected some Khan Academy course work for you to work on over the summer. It is required for your Integrated Mathematics I course. Over the years, we have found that students who continue to work on mathematics over the summer and have a strong foundation in this set of skills, have a higher probability of success in our mathematics and physics programs. You may work on the assignments in any order and must score at least 75% on each lesson. The expectation is that you spend between 10-15 minutes a day, or approximately an hour a week, completing these assignments.

Students will need to create an account on Khan Academy. Please go to the [link](#) below to watch a video on how to set up Khan Academy for your summer work. If you have any questions, please feel free to contact via email at [bhesik@pths209.org](mailto:bhesik@pths209.org).

We look forward to seeing you in August. Have a great summer.

Sincerely,

Brian Hesik  
Mathematics Department Chair
