Re: Khan Academy Coursework (Summer 2020)  
Date: June 24, 2020

Dear Class of 2024,

Welcome to the Proviso East and Proviso West Math and Science Academy family! In preparing you for a smooth transition to freshman year, we have selected some Khan Academy math coursework for you to complete over the summer. This coursework is required for your 9<sup>th</sup> grade Integrated Mathematics I course, and it will count toward your first quarter grade in class. Over the years, we have found that students who continue to work on mathematics over the summer develop a stronger foundation in these skill sets, and they have a higher probability of success in our mathematics and physics programs. You may work on the assignments in any order, and you must score at least 75% on each lesson. The expectation is that you spend between 10-15 minutes a day, (or approximately an hour a week), completing these assignments. All assigned coursework must be **completed by August 17<sup>th</sup>, 2020** – the first full day of school.

In order to get started, students will need to create an account on Khan Academy. Please go to [www.khanacademy.org/join](http://www.khanacademy.org/join) and enter class code **B3JZB53S**. You will then join the following class: **PEMSA/PWMSA SUMMER MATH 2020**. Within 24 hours, your assignments will be released to you. If you have any questions, please feel free to contact me via email at [cchiganos@pths209.org](mailto:cchiganos@pths209.org) or call 708.835.5748.

We look forward to seeing you in August, and we hope you and your family have a safe and memorable summer.

Kind regards,

Cristin Chiganos  
Director of Innovation
