Student Course Selection Worksheet

SY 2026-2027 for Sophomores

Name _____

Student ID _____

Counselor _____

This worksheet will help you, your parents, and your counselor decide what courses to select next year. You will be able to log into PowerSchool to select these choices online. Next year as a sophomore, you will take a total of 5 required courses and 2 elective courses to complete your class schedule. You will choose one course in each department from the Required Courses section below. You will choose 5 courses in the Elective courses on the back. Rank your 1st through 5th choices. (Your 3rd, 4th, or 5th choices will be used if your 1st and 2nd choices cannot fit into your schedule.) Elective courses may be taken all in one department or from different departments.

Note: Selecting a course is not a guarantee that you will automatically be enrolled in that course. Course offerings are dependent on enrollment and staffing. Your course selections may also change based on any credit or graduation requirement deficiencies. Diverse Learners and Multilingual Learners will be placed in general education equivalent classes based on individual student need.

PEMSA Students: Your required core courses include IH English 2, IH Integrated Math 2, IH Chemistry, IH Black History 365 and IH Civics or AP US Government & Politics. Use this sheet to indicate your required courses and electives.

REQUIRED COURSES	
Choose 1 class in each department unless otherwise noted. Place an X in the box.	
English	Wellness/NJROTC (Choose at least 2 PE or 1 NJROTC)
☐ English 2	☐ Sophomore Physical Education (semester course)
